

VERGE Overview

VERGE's Delivers Real – Time Integrations for Transportation Enforcement Software, LPR Systems, Smart Parking Meters, Multi-space Meters, Mobile Payment Apps and Permitting Programs.

VERGE Optimizes Services

Analyze data from any of your data sets; from transportation asset revenue tracking to digital permit management.

VERGE Data Analytics

Bring the power of advanced data analytics and predictive modeling to your transportation operations.

VERGE Assisted Enforcement Route Design

Identify the streets and areas with the highest probability for enforcing unpaid parking as well as outstanding citations.

VERGE GPS Mapping Software Advantages

Integrated services with your LPR system tells staff where a particular license plate was read, when it was read and how often it has been read.
