

# How VERGE Occupancy + delivers unmatched camera-based enforcement with Data Analytics

## DIRECTED ENFORCEMENT

Integrating with your payment & permitting technology, Occupancy + identifies real-time parking violations, including unpaid, unpermitted, overstay and scofflaws. Enforcement labor is optimized based on leveraging violator notifications by parking zone. As a result, your parking enforcement program is completely automated.

## WAYFINDING

Parking availability is easily displayed on digital signage, your website, mobile payment apps, or social media, eliminating congestion and enhancing the parker experience.

## REPORTING

Occupancy + delivers all the data you need to maximize the value of your parking enforcement program. Instantly view, track and analyze occupancy, revenue and violation information with ease.

**RISETEK** delivers proven results with our innovative, intelligent, state-of-the-art proven technology solutions while optimizing our valued clients business performance and empowering them to achieve next-level success.
